

Jamie Metz!

Jamie Metz! is a Senior Fellow of the Atlantic Council, Founder and Founder and Chair of the global social movement, [OneShared.World](#), and a faculty member of Singularity University Exponential Medicine. A leading technology futurist, he is the author of the bestselling book, [Hacking Darwin: Genetic Engineering and the Future of Humanity](#), which has been translated into 15 languages. In 2019, he was appointed to the World Health Organization expert advisory committee on human genome editing. Called “the original COVID-19 whistleblower,” his leading role advocating for a full investigation into the origins of the COVID-19 pandemic has been featured in *60 Minutes*, the *New York Times*, and most major media across the globe. Jamie previously served in the U.S. National Security Council, State Department, and Senate Foreign Relations Committee and with the United Nations in Cambodia. Jamie appears regularly on national and international media and his syndicated columns and other writing in science, technology, and global affairs are featured in publications around the world. In addition to *Hacking Darwin*, he is author of a [history of the Cambodian genocide](#), the historical novel [The Depths of the Sea](#), and the genetics sci-fi thrillers [Genesis Code](#) and [Eternal Sonata](#). His next book, *The Great Biohack: Recasting Life in an age of Revolutionary Technology*, will be published by Hachette in May 2024. Jamie holds a Ph.D. from Oxford, a law degree from Harvard, and an undergraduate degree from Brown.
